NATURAL STONE SOLUTIONS

Stone | Quartz | Fabricator | Installer

Builders who work with NSS Millworks benefit from:

Greater Flexibility

NSS ensures our processes remain flexible, so we can assist the home builder in meeting their project timeframes. Our goal is to make sure we are assisting the project manager to meet their goals rather than being an obstacle to their success.

Greater Reliability

We want to make builders happy so that they will continue to use our services in all of their projects. NSS's commitment is to make certain it delivers the same high quality of work at every job we are contracted to complete.

Greater Profitability

Our wholesale prices won't be beat. We guarantee the builder will decrease overall costs and increase profitability as it relates to their fabricating and installation needs. Whether a kitchen or a bathroom job, we won't charge variable rates.

“Efficiency and discipline are the two core fundamentals we instill in our people. Our clients demand better, faster and cheaper. We had to figure out concepts to make our product look better than the competition and be able to execute installations twice as fast as the norm. It's all in the planning.”

— Morgan Thomson, President

OUR SUCCESSFUL RELATIONSHIPS SAY IT BEST

Project: Sansara Condominium

Working with the dedicated team from Natural Stone Solutions helped the Sansara Condominium project in downtown Sarasota become one of the most newly recognized boutique residences in town.

The quality of our sub contractors is what we attribute the building's success to. Thank you Natural Stone Solutions for your hard work and dedication.

— Matt Kihnke, President - MK Equity Corporation

Project: The Jewel Condominium

You can't help but like the NSS team. Clarinda, Morgan and staff are professional and the products NSS utilizes are spectacular. I would recommend NSS to other customers.

— Tom Mannausa, President
Main Street J Development Co.

As the owner of a premier interior design firm, quality, price and timeliness is key for my reputation and personal expectations. I love working with NSS. They are one of the best local fabricators that can stick to a schedule and their craftsmanship is seamless.

— Kurt Lucas, President - JKL Design Group, Inc.

Project: Orange Club Condominium

As a VP of a construction business, I'm always looking for subcontractors that can provide quality results and meet my deadlines.

I was able to find that with Natural Stone Solutions. NSS did a great job in fabricating and installing many different countertops in the Orange Club condo complex we built in downtown Sarasota. Their **quality craftsmanship** along with the other high end subcontractors we used helped sculpt a project we could be proud of. **I would recommend NSS to any builder or homeowner who is seeking a quality installation.**

— Tim Tyrrell, Vice President
VANDYK Group of Companies
